Brand New Book ***** Print on Demand *****.If Google scanned all the SAT exams ever created, cross-referenced this research with all student outcomes, then developed an algorithm to determine the top 10 strategies needed to improve scores across the board, this book would be the result. Unfortunately, they haven't, so here's the next best thing. The Harvard and Princeton educated tutors of Method Test Prep have worked for years to perfect the best approaches to SAT performance. A graphic expansion on their work, this guidebook will encourage NEW SAT testing habits that bring out your best, in an unforgettable format. Here's Your Don't Do list: Don't go through every bulky study guide you can find. Don't slave over problem after problem to relearn what you were taught. Don't do sleep learning with a speaker under your pillow. Don't try hypnotism. Here's Your To Do list: Do come to recognize the simplicities built into the test. Do learn the insights that work on multiple problems across the test. Do practice the high-yield habits that ensure a better result. In this book, in a high-impact graphic format designed to stick in your memory, you will find simple strategies you won't learn in school, but that you will apply, again and again, during the test. You can do this. The answers are inside.
